WHAT YOU CAN EXPECT FROM US

Econometrica's approach to project management begins with client relationships. You – our client – become an integral part of the project team to ensure that emphasis is given to your unique needs. Our goals are to provide you with:

- The most highly-qualified people to staff your project and ensure that you get the results you want – on time and within budget.
- A single, responsible contact within our firm for each project.
- Intensive hands-on oversight from our top management for each account.

We are known for bringing together a corps of exceptionally well-trained experts from a wide range of disciplines and pragmatic experiences. Their advanced educational and professional qualifications enable us to offer you top quality services. If your project requires additional specialized expertise, we draw upon highly seasoned professionals to augment our staff. Our overriding goal is to provide you always with the best talent for your individual project needs.

ECONOMETRICA OFFERS THE FOLLOWING SUPPORT SERVICES TO CLIENTS INVOLVED IN FINANCE, MANAGEMENT, AND REGULATORY ACTIVITIES RELATED TO HOUSING AND COMMUNITY DEVELOPMENT:

Policy Analysis, Research, and Regulatory Reform:

Provide expertise related to Federal housing and community development programs, including affordable housing, fair housing, public housing, homeownership, economic development, urban revitalization, quality of life, homelessness, the elderly, and persons with disabilities. Advise on urban housing and public policy guidelines and management practices, including identifying and evaluating public policy alternatives.

Evaluations and Assessments: Evaluate program outcomes, assess program performance, perform cost-benefit analyses, and develop implementation plans and measurement standards for new programs. Develop and implement social science analyses.

Budget and Financial Analysis: Assess program costs, develop cash flow analyses, and support budget preparation. Review and analyze audited and unaudited PHA financial statements and records. Assist with asset management and risk analyses, and develop financial plans consistent with organizational models, including project-based budgeting.

Facilitation and Mediation: Provide problem-solving services, including building consensus, resolving disputes, and designing and conducting participatory processes. Provide conference support.

Technical Assistance and Training: Provide program planning and training for a wide range of housing and community development programs. Identify problems and implement appropriate program modifications. Coordinate staff in ongoing process improvements. Provide technical writing and editing services.

Information Management and Analysis: Manage human resources and financial assets. Provide spreadsheet development, statistical analyses, and database creation and analyses. Provide database management and data support services. Design web sites. Develop internal and external management tools and interactive tracking applications tailored to the management needs of Federal, State, and local agencies.
