## WHAT YOU CAN EXPECT FROM US

Econometrica's approach to project management begins with client relationships. You – our client – become an integral part of the project team to ensure that emphasis is given to your unique needs. Our goals are to provide you with:

- The most highly-qualified people to staff your project and ensure that you get the results you want – on time and within budget.
- A single, responsible contact within our firm for each project.
- Intensive hands-on oversight from our top management for each account.

We are known for bringing together a corps of exceptionally well-trained experts from a wide range of disciplines and pragmatic experiences. Their advanced educational and professional qualifications enable us to offer you top quality services. If your project requires additional specialized expertise, we draw upon highly seasoned professionals to augment our staff. Our overriding goal is to provide you always with the best talent for your individual project needs.

## FOR FEDERAL GOVERNMENT CLIENTS, WE CAN PROVIDE THE FOLLOWING SERVICES:

**Regulatory Analysis:** Conduct studies of the economic impacts of regulations in accordance with OMB guidelines for meeting the requirements of Executive Order 12866 and other guidance documents.

**Regulatory Flexibility Analysis:** Examine the impacts of regulations on small entities, in accordance with the Regulatory Flexibility Act.

**Cost-Benefit Analysis:** Conduct analyses to determine net benefits of proposed regulations. When appropriate, conduct cost-effectiveness analyses.

**Environmental Assessment:** Assess the effects of proposed rules on the environment, ensuring that final decisions will be based on sound analysis of environmental impacts following National Environmental Policy Act procedures.

**Paperwork Reduction Act Analysis:** Examine whether new rules will increase or reduce paperwork, and quantify how large the increases or reductions will be.

## ECONOMETRICA OFFERS A WIDE RANGE OF CONSULTING SERVICES TO CLIENTS INVOLVED IN REGULATORY ACTIVITIES OR LITIGATION MATTERS IN THE AREAS OF HEALTH AND SAFETY:

**Review Regulatory Notices:** Provide advice on potential impacts of proposed rules and suggest alternative responses.

**Prepare Comments on Agency Rulemakings:** Draft technical responses to Agency *Federal Register* notices.

**Conduct Cost-Benefit Analyses:** Review regulatory analyses that accompany Agency rules and prepare cost-benefit analyses of alternatives.

**Prepare Risk Assessments:** Determine risk associated with occupational and product hazards. Address issues of risk identification and risk communication.

**Perform Strategic Analyses:** For clients facing potential regulations, provide advice on procedural, technical, and economic issues and policy considerations.

**Support Product Recalls:** Work with clients to develop product recall or other remedial action measures when products are not in conformance with safety regulations.
